# **Product Placement**

Product placement is a "hidden" ad that the audience cannot miss because it is part of the program they are watching. Product placement helps to raise awareness of products and services. Furthermore, the audience's trust for a specific brand may increase unconsciously, simply because their favorite character "loves" that brand.

# Media Benefit

Besides products integrated into the program, our media amplification delivers extra reach as well as builds awareness and frequency through additional on-air promotion campaigns across the schedule and promotion via social.

#### PRODUCT PLACEMENT | PRODUCTS INTEGRATION

By integrating products, brands can capture audiences' attention without distracting them from the entertainment. Consumers can't swipe away or block and usually don't fast-forward product placements. Therefore, it's one of the most organic and influential ways to reach consumers.
